

Footprints history

Bayview Footprints started in 2006 when informal groups needing support where there was none decided to...

- 👉 *Tell a positive BVHP story*
- 👉 *Develop shared resources*
- 👉 *Work together*
- 👉 *Honor deep roots & diversity*

Herb Dang, Public Glass & ART 94124

Bayview Footprints quickly grew to over two dozen member groups, and...

- 👉 *Led a series of social events*
- 👉 *Created a community calendar*
- 👉 *Started a local news source*
- 👉 *Built a portal website*

Footprints has supported us by promoting and participating in our events...even fundraising for them.

Heidi Hardin

Let's help each other

Are you part of a community or social group that could use support and has something important to share?

Community and social groups are the lifeblood of our community, but can be isolated and invisible. Church groups... school clubs... book groups... gardeners... art collectives... advocacy groups... block associations... even families!

Wouldn't it be great if all those groups were connected so that each could teach and learn from the others?

The active Footprints groups are working well together, advocating for each other, complementing each other...as a direct result of their membership.
